SHOPBELL**

Architects

**Evansville,
Indiana**

TO THE PUBLIC.

WE ARE presenting herewith pictures of some of the buildings which were erected in Evansville and vicinity during the past seven years from plans prepared in this office. To the interested we will be glad to furnish descriptions and floor plans at any time for inspection, together with cost of construction and price of plans and specifications.

Our practice has been extensive throughout Indiana and Kentucky. Over seven hundred buildings of all classes having been designed since we began business in June, 1897. We try to please our clients both in regard to design and cost of construction, and are well prepared to execute any work entrusted to our care.

Very respectfully,

HARRIS & SHOPBELL.

The Rookery,
Evansville, Ind.

Experience! Reputation! Guarantee!

WHY BUY CHEAP PAINTS ?

when you can buy the best
at nearly the same price. The price
of paint is not the
only one to be considered in painting a building.

How many years will the labor
expended prove effective?

Labor is the greatest item, therefore use

Masury's House Paints

They are Pure Linseed Oil Paints,
most durable. Have a reputation of fifty
years as a guarantee.

A Word About the Inside Finish

Excepting faulty construction, which may endanger life and limb, there is no defect in a building quite so serious and certainly none so much in evidence, as poorly finished wood work.

There is an unfortunate tendency on the part of the owners to try and save a few dollars by the employment of cheap unskilled labor, and the use of cheap materials in connection with the finishing work. The importance of having a skilled mechanic and selecting high grade Varnishes, Stains, Fillers, etc., cannot be exaggerated, for poor Varnish will hopelessly ruin any wood work, and the consequent efforts to obliterate unsightly mars and scratches and the attempts to remedy the evil done, are but an ever increasing expense, with no possibility of ultimately securing a satisfactory finish.

We would urge you therefore, to be guided in your selection of Varnishes, Fillers, etc., either by the advice of your architect whose experience in such matters can save you endless worry and care, or to choose the product of a reliable manufactory whose goods are known for their uniform high quality.

We are the only varnish manufacturers making a specialty of Architectural or House Varnishes, and our products are accepted as the standard for quality by the leading architects of the country.
